Subject: Strong Recommendation for Ms. Léonie Biolet – Internship Application

Dear Sir/Madam,

I am pleased to strongly recommend **Ms. Léonie Biolet** for an internship within your company, **PosadMaxwan**. I have had the privilege of working with her on several academic projects, and during this time, I have been impressed by her technical expertise and her strong interpersonal skills.

Léonie has shown a deep interest in **sustainable, active, and shared mobility**, as well as the challenges related to **mobility behavior change**. She is planning to specialize in the **AMT (Planning, Mobility, Transport)** track within the **Urban Engineering** department, and views PosadMaxwan as an ideal opportunity to further develop her expertise in **Geographic Information Systems (GIS)** and sustainable mobility. She is particularly eager to benefit from the experience of your team, as well as from your unique geographical location, which is situated in a region where **cycling is highly prioritized**.

Léonie excels in **GIS**, particularly **ArcGIS**, and is proficient in automating processes using **Model Builder**. She is also skilled in **Python**, enabling her to design customized solutions and optimize complex workflows. In a recent academic project, she played a pivotal role in developing solutions to optimize decision-making for the installation of underwater infrastructure, accounting for various risks. Her work resulted in clear, insightful analyses that provided valuable support for the strategic recommendations made.

Beyond her technical capabilities, Léonie stands out for her **collaborative and proactive nature**. She consistently contributes innovative ideas to improve projects and works effectively within teams, fostering a cooperative and dynamic environment. She also demonstrates **natural leadership**—guiding her peers toward actionable solutions while encouraging collective enthusiasm and engagement.

Léonie's curiosity, diligence, and commitment make her an asset to any team, and I am confident that she will contribute significantly to your projects while further honing her expertise in areas that align with her professional goals.

Please feel free to contact me for any additional information.

Yours sincerely,

Dr. Maxime HACHETTE
